

Job Opening – Part-time Visual Content Creator

Position: Visual Content Creator

Career level: Beginner

Experience: Familiar with 2D and 3D visual content. Experience with image editing softwares (e.g. Photoshop) and/or 3D computer graphics softwares (e.g. Blender) is a plus.

As a Visual Content Creator, you will:

- Perform an end-to-end process of creating and managing digital visual content, starting from scanning physical products, polishing 3D models, and integrating the models to Fision's online platform.
- Collaborate with the Sales team to customize the digital content for customers' needs.
- Collaborate with the Engineering team to support them with necessary data.

Desired skills

- Creative and passionate about creating visual content.
- Effective communication with internal and external collaborators for content creation.
- Self-motivated and willing to learn new skills.

Start date: Flexible, asap

Fision is a startup technology company based in Zurich. We develop and operate SaaS solutions addressing the challenges of the apparel industry, enabling our corporate clients to better serve their end customers online.

A large part of our product portfolio revolves around 3D reconstruction, simulation & visualization to make online shopping more accessible to customers. Therefore we are looking for a creative and highly motivated visual content creator that can help us bring this virtual shopping experience to the next level.
